

BUSINESS PROPOSAL

Made in India Fuels

myindifuels.com

MYINDIFUELS PVT LTD

INVITATION

We are excited to offer you the opportunity to invest in our rapidly growing venture. As pioneers in the production of Drop-in Fuels , Renewable, and Synthetic Fuels across India, we provide advanced, high-quality fuels that drive sustainability and innovation. Our mission is to create green energy solutions for a cleaner, brighter future, and our ultra-premium, low-emission fuels are compatible with all engines. With years of expertise, we've developed customized solutions that address the evolving demands of the fuel industry. As the market faces a significant supply-demand gap, we believe this is the perfect time to join us in this exciting venture. We look forward to exploring this partnership and being part of your success.

INTRODUCTION ABOUT OUR COMPANY

My Indi Fuels Pvt Ltd is a pioneering company dedicated to producing renewable fuels through advanced technology and innovative methods. With a strong commitment to environmental sustainability and socio-economic development, we aim to create eco-friendly solutions that benefit both the planet and economically challenged communities.

OUR VISION

To be a credible and foremost company in renewable fuels, contributing positively to society and the environment. We aspire to lead the industry through innovation and excellence, driving sustainable development and creating a lasting impact on the communities we serve.

OUR MISSION

At My Indi Fuels Pvt Ltd, our mission is to utilize advanced technology and innovative methods to produce renewable fuels that are environmentally safe and sustainable. We strive to create a beneficial socio-economic environment for the economically challenged population by delivering high-quality, accessible energy solutions. Our commitment to excellence, safety, and environmental responsibility drives us to lead the way in the renewable fuels industry, fostering economic growth and improving the quality of life for communities across India

OUR LEADER

Rishabh Gupta, Founder and Managing Director of My Indi Fuels Pvt Ltd, has over a decade of experience in the drop-in fuels and renewable energy sectors. As a researcher, consultant, and entrepreneur, his leadership has been instrumental in steering the company's strategic direction. With multiple patents filed in Plastic Pyrolysis technology, Rishabh's dedication to innovation is evident. His unwavering passion for sustainable energy solutions has propelled My Indi Fuels to the forefront of the drop in fuel industry.

(Rishabh Gupta)

Founder and Managing Director

BACKGROUND & PROBLEMS

India's crude oil import bill nearly doubled to \$119.2 billion in the fiscal year 2021-22, up from \$62.2 billion the previous year, driven by soaring global energy prices due to increased demand and the war in Ukraine. The country, which is the world's third-largest oil consumer, imported 212.2 million tonnes of crude oil, reflecting a rise from the previous year but still lower than pre-pandemi. Despite having a surplus refining capacity, India remains heavily reliant on imports, meeting 85.5% of its crude oil needs from foreign sources. This heavy dependency, along with a decline in domestic oil production, has exacerbated the demand-supply gap. In contrast, the rising cost of imports, including crude oil, petroleum products, and LNG, highlights the urgent need for alternative energy solutions. Renewable fuels present a sustainable answer to reduce this reliance and address the growing demand-supply deficit.

OUR SOLUTIONS

MYINDIFUELS RETAIL OUTLETS

We strive to redefine the fueling experience with innovation, efficiency, and sustainability. Our state-of-the-art outlets are designed to offer premium biofuels, BioCng, Green Hydrogen and drop-in fuels that align with global green energy standards.

We are committed to providing reliable, eco-friendly fuel solutions to meet the growing demands of modern transportation while reducing carbon footprints. With customer convenience as our top priority, our outlets feature modern amenities, quick service, and a seamless experience.

INVESTMENT STARTING FROM

SH/PWD- ₹ 60,00,000/-

NH- ₹ 80,00,000/-

BIO CBG RETAIL OUTLET- ₹ 1,40,00,000/-

MODELS FOR RETAIL OUTLET

DEALER OWNED DEALER OPERATED (DODO)

Model for petrol pump dealerships offered by My Indifuels Pvt Ltd presents an attractive business opportunity for entrepreneurs. Under this model, the dealership is owned and operated by the dealer, providing significant autonomy and entrepreneurial freedom.

DEALER OWNED COMPANY OPERATED (DOCO)

Model offered by my indi fuels pvt ltd provides a unique opportunity for entrepreneurs to own their petrol stations while leveraging the company's operational expertise. Under this model, the dealer retains ownership of the station, while my indi fuels handles the day-to-day operations, management, and support. This setup allows dealers to benefit from a hassle-free business experience, with the assurance that the station is working effectively

MODELS FOR RETAIL OUTLET

DEALER-COMPANY PARTNERSHIP MODEL

Dealer-Company Partnership Model is a collaborative framework designed to empower local entrepreneurs and promote sustainable energy solutions. Through this partnership, we aim to create a nationwide network of advanced retail outlets offering premium biofuels and drop-in fuels. On 50-50% investment between company and dealer.

COMPANY OWNED COMPANY OPERATED MODEL (COCO)

The COCO Model by My Indifuels represents our commitment to delivering excellence and sustainability in fuel distribution. Under this model, we directly manage and operate premium retail outlets to ensure the highest standards of quality, service, and efficiency.

NOTE:-

Company is taking responsibility to avail loan to dealer 50 to 60% of the total project cost through Public sector Banks, Private Banks, NBFC, Cash Finance or by the company itself.

OUR SOLUTIONS FOR PRODUCTION PLANTS

• WASTE PLASTIC TO FUELS PLANT

State of the art Plastic Pyrolysis Plants with Distillation Plants produce BVI standard diesel & petrol with fabulous ROI. Our Plastic Pyrolysis' plant converts waste plastic into useful fuel (diesel & petrol), which is of BS6 grade quality. As this diesel & petrol doesn't contain corrosive / harmful chemicals they are better than fossil fuels. Since it cheaper is produced domestically this job & offers multiple opportunities to local manpower. The ROI on this plant is ~ 18 months & with surging fuel prices we expect the ROI tenure to come within 18-24 months.

• MY INDIWHEELS MOBILE BOWSER

Indifuels brings convenience and efficiency to your doorstep with our innovative diesel delivery service. Designed to cater to businesses and individuals alike, our doorstep diesel delivery ensures you never have to worry about fuel shortages or the hassle of refueling at traditional stations. Whether you operate a fleet of vehicles, manage a construction site, or need diesel for your generators, Indifuels provides a seamless and reliable solution to meet your fuel needs.

• GREEN HYDROGEN PLANT - RUDRA

Our Hydrogen production plant is an unique offering for business which are into H₂ production or consumption as this plant offers over 30 % saving in cost & comes with a dual product output (Hydrogen + Carbon black) The ROI on this plant is ~18 months & is capable to operate 24/7 for the entire year as it is equipped with an IoT system & centrally monitored.

• BIO DIESEL PLANT

At the Bio Diesel plant we process palm oil, palm fatty, acid oil, soya fatty, rice bran fatty, animal tallow, used cooking oil as a raw material to obtain diesel. The raw material feed is processed with methanol in presence of sodium hydroxide to derive diesel. With our advanced technology system, we ensure an ROI within 24 months of operations.

• BIO CNG PLANT

At the Bio CNG plant we process Municipal Solid Waste (Organic Waste), Agri waste, PressMud (Waste of Sugar Industry), Cow Dung, Bakery Waste as a raw material to obtain Biogas and slurry which further processed in to Bio CNG and Bio Fertilizer. With our advanced technology system, we ensure an ROI within 24-36 months of operations.

MARKETING CHANNEL PARTNER

My Indifuels Pvt Ltd seeks to collaborate with dynamic and growth-oriented individuals or businesses as Marketing Channel Partners on a zone basis and District Channel Partners on a district basis. These partnerships aim to expand our market reach and create a robust network for delivering eco-friendly biofuels and drop-in fuels across regions.

MARKETING CONSULTANTS

• APPOINTMENT OF MARKETING CONSULTANT FOR MY INDIFUELS

My Indifuels Pvt Ltd is pleased to announce the appointment of a Marketing Consultant to enhance the company's strategic marketing initiatives. This role will focus on developing innovative marketing strategies, strengthening brand presence, and expanding market reach for biofuels and drop-in fuels. The consultant will collaborate with our in-house team to drive sales, optimize campaigns.

This strategic move aligns with My Indifuels' commitment to growth and sustainability in the energy sector.

INVESTMENT POLICY

My Indifuels Pvt Ltd is committed to fostering sustainable growth through a strategic investment policy. Our approach focuses on channeling funds into innovative biofuel/Drop in fuels technologies, infrastructure development, and expanding our market presence.

• DIRECT INVESTMENT

My Indifuels Pvt Ltd is open to direct investments through debt financing to support its expansion in the biofuels and drop-in fuels market. This investment will enable the company to scale operations, enhance infrastructure, and fund new ventures like My Indiwheels, our doorstep diesel delivery service. By choosing debt investment, My Indifuels aims to maintain operational autonomy while ensuring steady returns for investors through structured repayment plans. This approach reflects the company's commitment to sustainable growth and long-term value creation in the renewable energy sector

RETURN ON INVESTMENT:- 2-4 % Monthly depend upon investment size.

• ON PROJECTS

My Indifuels Pvt Ltd invites investors to participate in its growth journey by investing in our upcoming projects, including the establishment of new production plants and retail outlets for biofuels and drop-in fuels. As a company committed to innovation and sustainability, we offer a unique opportunity to be part of India's expanding renewable energy market. Investors can expect a high return from on investment through well-structured plans aligned with the company's growth strategy. Partner with My Indifuels and fuel the future with us!

RETURN ON INVESTMENT:- 2-4 % Monthly + Shares in % based upon the investment in the new sister company

RESEARCH & DEVELOPMENT

At MIPL, our Research & Development focuses on leveraging pyrolysis, a key technology in sustainable energy production. This process thermally decomposes organic materials like agricultural and plastic waste in the absence of oxygen, producing valuable byproducts such as bio-oil, syngas, and biochar. These can be further refined for use as renewable energy or in various industrial applications. By utilizing pyrolysis, we are dedicated to reducing waste, lowering carbon emissions, and supporting the circular economy, all while advancing our mission of sustainable energy production.

DROP IN FUEL TECHNOLOGY

Drop-in fuel is a renewable, sustainable alternative to conventional fossil fuels, designed to "drop in" and function seamlessly with existing fuel engines and infrastructure. Unlike other biofuels, drop-in fuel requires no engine modifications, making it a convenient and efficient solution for reducing carbon emissions and environmental impact.

My Indi Fuels Pvt Ltd (MIPL) specializes in producing high-quality drop-in fuels from advanced bio-resources through a proprietary, patented process. This fuel maintains the performance standards of traditional fuels while offering a greener, low-emission alternative. By providing an eco-friendly solution that meets the demands of consumers and industries alike, MIPL's drop-in fuel aligns with the company's commitment to sustainable energy and a cleaner energy future.

THANK YOU FOR SHOWING YOUR INTEREST

We aspire to lead the industry through innovation and excellence, driving sustainable development and creating a lasting impact on the communities we serve.
